# ATTACHMENTS - FACTORY AND FIELD INSTALLED

A short description and recommendation of some of the various factory and field installations is given. This is done to help the sales person to recommend the best combination of equipment to the customer.

**Please note that the information, codes bundle numbers are given for reference only, the current price list must be the only official ordering document.**

Where factory installation codes or field installation bundle numbers were not available, they will be made available as soon as possible

## 1 HYDRAULICS

### 1.1 SELECTIVE CONTROL VALVES - SCV

The hydraulic system of the 5010N Narrow and SuperNarrow tractors is designed to fit specifically to vineyard and orchard applications.

The main characteristics are:

Simultaneous operation of rockshaft and SCVs on-the-go.

A great variety of SCVs options gives the choice to the customer as they fit to his needs.

Splitting the oil flow between single-acting and double-acting SCVs, granting a constant flow to the single-acting (e.g. for hydraulic motor applications).

Allows higher flow of the hydraulic pump in SCVs - increasing performance while working with front and rear implements.

Code	Bundle	Description
	ER067534	Field Installation Kit double-acting SCV at Position 2
	ER067536	Field Installation Kit double-acting SCV at Position 2 with FLOAT
	ER067535	Field Installation Kit double-acting SCV at Position 3

Models: 5310N - 5510N and SuperNarrow

*Note: up to serial no. 102841 with cab;  
up to serial no. 102916 w/o cab*

Code	Bundle	Description
	ER067585	Field Installation Kit double-acting SCV at Position 2 with DETENT
	ER067587	Field Installation Kit double-acting SCV at Position 2 with FLOAT
	ER067586	Field Installation Kit double-acting SCV at Position 3 with DETENT

Models: 5310N - 5510N and SuperNarrow

*Note: from serial no. 102841 with cab;  
from serial no. 102916 w/o cab*

## 1.2 HYDRAULIC LIFT ROD

The following Field Installation Kit allows tractors to be retrofitted with a right-hand hydraulic lift rod.

The lift rod is replaced by a double-acting hydraulic cylinder which is operated by one of the double-acting SCVs.

The hydraulic lift rod allows vertical compensation of the lower links when working on hillside vineyards or orchards.

Code	Bundle	Description
9260	ER067555	RH Hydraulic Lift Rod Field Kit

Models: 5310N - 5510N and SuperNarrow

*Note: min. 2 double-acting SCVs are necessary*

Code	Bundle	Description
9205	ER067556	Hydraulic Adjustable Lower Links

Models: 5310N - 5510N and SuperNarrow

*Note: a sliding wagon hitch or a sliding wagon hitch CUNA C for Italy, Spain or Portugal (w/o drawbar) is required*

## 1.3 ADJUSTABLE LOWER LINKS

5010N tractors offer hydraulically adjustable lower links. The hook up of any rear implements will be easier than ever before with the rear mounted hand pump.

Sway blocks move out when the driver operates the hand pump lever. This limits the side sway of the links and moves them outward.

Rear implements can be stabilized in the center position while working in hilly conditions.

---

## 2 ELECTRICAL - ELECTRONICAL COMPONENTS

---

### BEACON LIGHTS

Beacon lights for safe road transport of tractor and implement combinations are available for models with ROPS or with cab.

Code	Bundle	Description
9292	ER067574	Beacon Light Field Installation Kit for cab models

Models: 5310N - 5510N and SuperNarrow

*Note: The beacon light is positioned in the rear center of the cab, attached to the frame structure. No danger of damaging the roof when entering a low shed.*

Code	Bundle	Description
9291	ER066431	Beacon Light Field Installation Kit for tractors with 2-Post ROPS

Models: 5310N - 5510N and SuperNarrow

*Note: When not in use, beacon light can easily be removed. In this case always use the protective cap on the grommet to protect the electric contacts of the plug.*

### 3 MISCELLANEOUS

#### 3.1 OPERATOR'S STATION

##### Air Conditioning

A fully integrated air conditioning system is offered as an option with fully integrated controls. The overall height of the tractor does not increase with the air conditioning unit, due to the under-hood location of condenser and compressor and not in the cab roof. The system performs excellently due to condenser cooling by the full power of the engine fan and not by a much smaller roof mounted fan.

Front window is not openable with air conditioning option.

Code	Bundle	Description
	ER067562	Air-Conditioning System Field Installation Kit for 3 cyl. tractors

Models: 5310N, 5410N and SuperNarrow

*Note: order in addition:*

- 1 x ER136436 (Belt) and 1 x ER198322 (Pulley) for 5310N tractors;*
- 1 x ER198207 (Belt) and 1 x ER191183 (Pulley) for 5410N tractors*

Code	Bundle	Description
	ER067565	Air-Conditioning System Field Installation Kit for 4 cyl. tractors

Models: 5510N and SuperNarrow

##### Openable Windscreen

The opening front window improves ventilation on hot summer days.

Code	Bundle	Description
	ER067590	Openable Front Windscreen Field Kit

Models: cab only: 5310N - 5510N and SuperNarrow

##### Rear Wiper

The rear window has the provision to mount a rear wiper unit.

Code	Bundle	Description
	ER047920	Rear Wiper Field Kit

Models: 5310N - 5510N and SuperNarrow

### Mirrors

Second mirror located on the right-hand side of the ROPS for excellent rear visibility.

Code	Bundle	Description
9501	ER066432	2nd mirror on the RH side of 2-post ROPS

Models: 5310N - 5510N and SuperNarrow (only for tractors with 2-post ROPS)

### Activated Carbon Air Filter

The new activated carbon air filter provides extra comfort and protection against most airborne particles for the driver of a 5010 series tractor under heavy duty conditions. It is equipped with a synthetic pre-filter, a pleated filter element and an activated carbon cell.

Code	Bundle	Description
	ER263328	Activated Carbon Air Filter

Models: 5310N - 5510N and SuperNarrow

## 3.2 CHASSIS PARTS

### Front Fenders for MFWD tractors

The MFWD version has an optional durable two support front fender design, providing protection to the windows, body work and engine from dust and mud.

Code	Bundle	Description
9221	ER066437	MFWD Front Fenders

Models: 5310N - 5510N and SuperNarrow

### Front Fenders for 2WD tractors

Code	Bundle	Description
9222	ER066436	2WD Front Fenders

Models: 5310N - 5510N and SuperNarrow

### Rear Fender Extensions

All rear fender extensions are available as an option for cab and open station version.

Code	Bundle	Description
	ER065699	Rear Fender Extensions for 28" tires (rubber)
9111	ER067553	Rear Fender Extensions for 28" tires (rigid)
9110	ER067552	Rear Fender Extensions for 24" tires (rigid)

Models: 5310N - 5510N (only for Narrow)

Code	Bundle	Description
9116	ER067554	Rear Fender Extensions for 28" tires (rubber)
9115	ER067551	Rear Fender Extensions for 28" tires (rigid)
9114	ER067550	Rear Fender Extensions for 24" tires (rigid)
9113	ER067549	Rear Fender Extensions for 20" tires (rigid)

Models: 5310N - 5510N (only for SuperNarrow)

### 3.3 BRAKES

#### Hydraulic trailer brake valve

The field kits below permit the tractors to be retro-fitted with an hydraulic trailer brake valve.

Code	Bundle	Description
9252	ER067542	Trailer Brake Valve

Models: 5310N - 5510N and SuperNarrow

*Note: not for Italy*

Code	Bundle	Description
9253	ER067543	Trailer Brake Valve ITALY

Models: 5310N - 5510N and SuperNarrow

*Note: for Italy only; including CUNA D2 Hitch*

### 3.4 HITCHES AND ASSOCIATED EQUIPMENT

#### Swinging drawbar

Code	Bundle	Description
	ER199882	Swinging drawbar, EEC type

Models: 5310N -5510N

*Note: from serial no. 104522*

*Note: please order in addition if required:  
ER199890 (pin fastener)*

Code	Bundle	Description
	ER199883	Swinging drawbar, CUNA type

Models: 5310N -5510N

*Note: from serial no. 104522, for Italy only*

*Note: please order in addition if required:  
ER199889 (pin fastener)*

#### Piton Fix

Code	Bundle	Description
	ER196461	Piton Fix

Models: 5310N -5510N

*Note: up to serial no. 104521*

Code	Bundle	Description
	ER199905	Piton Fix

Models: 5310N -5510N

*Note: from serial no. 104522*

Code	Bundle	Description
	ER196459	Hitch coupling, CUNA D2 type

Models: 5310N -5510N

*Note: up to serial no. 104521, for Italy only*

*Note: please order in addition if required:  
ER040575 (pin fastener)*
